

# Recycling Industries

Serving Commitments

DRI (Deep Recycling Industries) is an ISO 9001 established company name in the manufacture and export of all types of Brass products. The company has four distinct divisions

**POINTBRASS SMELTING DIVISION** manufacturing raw materials like billets and ingots

**POINTEXTRUSION DIVISION** manufacturing Extruded brass sections – any solid or hollow sections

**POINTPRECISION MACHINING DIVISION** manufacturing Precision brass components used in Electrical industry, fittings for plumbing, gas and oil industry.

**POINTMANUAL METAL ARC(MMA) DIVISION** manufacturing arc welding accessories for international major OEMs in Europe, American and Asian continents

DRI was established in 2002 with a modest beginning in the manufacture of basic brass raw materials in the form of billets and ingots. The sincere efforts soon expanded into forward vertical integration into manufacture and export of Brass Extruded Sections. It was the inception of BRASS EXTRUDED SECTION Division. Our precision attitude soon helped us to set up a new "PRECISION MACHINING DIVISION" serving the industry with precision brass components for electrical industry, pneumatic and hydraulic systems, plumbing, gas and oil industry. This was all achieved in a span of 8 years reaching an annual turnover of \$ 15 million.

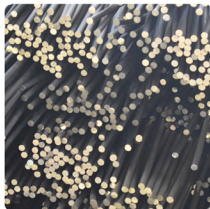

DRI became a premium name in BRASS INDUSTRY. Our supplies included direct export to multinational companies in Europe, Middle East and export through SEZ export zone companies.

In 2010, DRI launched – MANUAL METAL ARC WELDING ACCESSORIES DIVISION (MMA Division) brand name "Weldware" principally to supply Electrode Holders, Ground Clamps and Coupling Devices for welding cables to international standards for OEM companies engaged in the welding industry. DRI caters to a wide range conforming to European and American designs.

**Manufacturer And Exporter Of Brass Profile Copper Alloy Extrusion Rods  
In Round, Hex, Square & Flat, Sections & Profiles (As Per Drawing)**

Extruded Copper and Copper Base Alloys Rods, Hollow Rods  
Wires, Sections, Ingots, Tubes & Components As per IS, BS,  
DIN, JIS, ASTM, GOST & All Other International Specifications

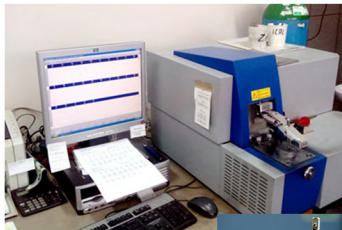

## QUALITY POLICY

Our target is to provide zero defects products to client which is remarkable in industry.

Since our establishment, quality has always been a most important aspect of our organization. We are continuously engaged in delivering our clients a flawless range of Industrial Metal Products. Our state-of-the-art infrastructure facilitates us with an ultramodern testing laboratory. This lab is full-fledged with technologically advanced and sophisticated testing equipment and tools. We have employed highly qualified and experienced quality controllers who are the base of our organization's quality standards. They are conducting a rigorous quality testing on various parameters for ensuring the international standards of our range.

Following are some of the parameters on which we check our range:

- Durability
- Tensile Strength
- Finish
- Hardness
- Corrosion Resistance

We at Deep Recycling Industries are committed to manufacture and supply quality Copper Alloys Extrusions, continuously focusing on evolving needs of market. We communicates and implements the quality philosophy and values with the help of progressive sharing and learning.

## Products

### Terminal Bars, Earth Bar

We are manufacturing all kind of electrical components and electrical wiring accessories for many applications. We produce components as per customer's requirement which change accordingly customer application. The offered range of components is manufactured by our professionals using optimum quality brass and latest machinery.

## Products

### Aluminium Components

One of the most significant benefits of aluminum die casting is that it creates lighter parts—with more surface finishing options than other die cast alloys. Aluminum can also withstand the highest operating temperatures of all the die cast alloys. Moreover, cast aluminum is versatile, corrosion resistant; it retains high dimensional stability with thin walls and can be used in almost any industry.

## Products

### Split Bolt

Split bolt is a very handy component used in various equipment like industrial, electrical and even electronic equipment. The multifaceted utility of the split bolt depends up on the high quality material used and the precision adopted in the manufacturing process. Split Bolts are widely used to firmly hold any tiny object in between the split to have a precision in its operation whether electrical or industrial. We meet all the technical and quality control to deliver the best split bolts by using thorough processing and testing of the split bolts before it reaches the customer or the user. We use a very high quality of material to strengthen the life of the split bolts in all respects.

**Features :** Manufactured from high strength copper alloy Precision Tooled Threads

**Material :** BS 2874/Freely cut high quality brass rods. Any Special Brass Material Composition as per customer's requirement

**Sizes of Availability :** Split Bolt Connectors are available from 6 mm2 up to 500 mm2. Higher or lower sizes are possible with customer demand.

**Finishing :** Split bolt Connectors are rolled out in natural brass. They are also copper coated/electro tin finished/nickel plated. High conductivity copper also used on demand of the customers.

## Products

### BRASS CABLE GLANDS

#### Brass Cable Gland Range:

Alco Type Cable Gland, A2, A1A2 Cable Gland, BW 2 Part Cable Gland,  
BW 4 Part Cable Gland, BWR Cable Gland, CW 3 Part Cable Gland  
CW 4 Part Cable Gland, E1W Cable Gland, Marine Cable Gland, PG Cable Gland

Size : As per Customer Specification / Any Kind of Parts can be Developed and Supplied Exactly as Per Requirement.

Material : Brass-IS319, Free Cutting, BS 249, CuZn39Pb3, CW614N, CW602N, Cz132, C35330 Any Special Brass Material Composition As per Customer Requirements.

Threads : ISO metric, MM, PG, BSW, BSP, BSB, BSF, BA, NPT, NPTF, UNC, UNF, UNEF etc Ay Threads as per Customer's Design.

Finishing / Plating : Any Special Finish/Plating as per Customer's Specification.

## Products

### BRASS MOULDING INSERTS

Brass Moulding inserts for plastic, Brass Inserts for CPVC Fittings, Brass Inserts for PPR Fittings  
Material : Brass, red copper, bronze and OEM

Finishing: Nickel plating, gold plating, silver plating, tin plated.

Diameters: Various threads and sizes are available to suitable for different designs.

M1.0/M1.2/M1.4/M1.6/M1.7 M2.0/M3-- to M14

Industry Application Mobile communications — Mobile phone, Ipad, musical player, other handset electronics or home appliances.

## CNC TURNED COMPONENTS

Providing CNC turned parts throughout the World – working with all sizes of customers, we offer the same high quality services and standards to all.

## Products

### CUSTOM MADE COMPONENTS

### PRECISION TURNED PARTS (CUSTOM MADE COMPONENTS)

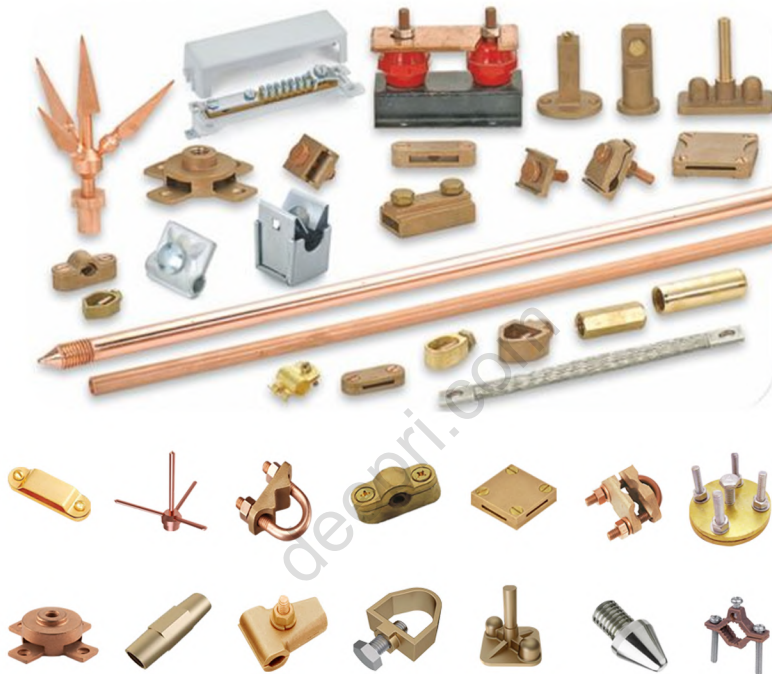

The finest surfaces and the smallest tolerances differ in terms of production methods and production times through the use of high-quality machines and processing tools. Our machinery is oriented towards these aspects in order to produce a wide range of precision parts: Whether large, small, with a complex structure with various internal and external contours or profiles, drilled holes, milling. We are also happy to overcome any obstacles relating to this.

We produce precise turned parts in medium to high quantities with diameters between 80 and an intricate 2 millimetres. However, we also achieve accuracies in the 0.001 millimetre range. Thanks to our high-quality machinery, we can guarantee that product quality is equally high. This is our motto for your satisfaction, we are not content with anything less.

From  $\varnothing$  2mm –  $\varnothing$  80mm  $\varnothing$  > 80 mm on request Product series with small to large quantities  
Advice concerning material selection A wide range of procedures possible Targeted production  
and storage Binding deadline agreements Quickest possible delivery time

### EARTHING ACCESSORIES

### EARTHING & LIGHTNING PROTECTION

**Size :**As per Customer Specification / Any Kind of Parts can be Developed and Supplied Exactly as Per Requirement.

**Material :**Brass-IS319, Free Cutting, BS 249, CuZn39Pb3, CW614N, CW602N, Cz132, C35330 Any Special Brass Material Composition As per Customer Requirements.

**Threads :**ISO metric, MM, PG, BSW, BSP, BSB, BSF, BA, NPT, NPTF, UNC, UNF, UNEF etc Ay Threads as per Customer's Design.

**Finishing / Plating :** Any Special Finish/Plating as per Customer's Specification.

## Products

### COPPER MACHINED COMPONENTS

We provide a wide range of Copper Machined Components, which are machined to perfection. These are offered turned, cast / machined components as per customer's requirements.

It is very difficult to maintain constant supply for copper components for brass manufacturing. We have set up of robust supply chain to make sure our deliveries on time for any amount of quantity without compromising in quality standard.

We are manufacturing all kind of Copper turned machined components for rotary switches for marine electrical industries transformer parts and precision turned components . We produce components as per customer's requirement which change accordingly customer application. The offered range of components is manufactured by our professionals using optimum quality brass and latest machinery.

Whether the requirement is for CNC or manual milled or turned copper parts, Deep Recycling Industries is the one stop shop for all as we have knowledge, expertise and equipment to meet your needs.

## Products

### LUGS

We specialized in manufacturing and exporting a durable range of Cable Lugs. Cable Lugs are available in numerous specifications and sizes as per the need of customers. We offer functionally advanced assortment of Cable Lugs that are strong in performance and have high strength. Premium quality material is used in production process which is been sourced from one of the certified vendors of the market. Cable Lugs are easy to install and highly functional for used in sturdy construction.

We are working with latest machines and modern tools in order to manufacture and export any products as per set industrial standard norms. We manufacture and export any type of Cable Lugs based on Custom Specification and Requirements.

## Products

### CNG LPG ACCESSORIES

**Size :**As per Customer Specification / Any Kind of Parts can be Developed and Supplied Exactly as Per Requirement.

**Material :**Brass-IS319, Free Cutting, BS 249, CuZn39Pb3, CW614N, CW602N, Cz132, C35330 Any Special Brass Material Composition As per Customer Requirements.

**Threads :**ISO metric, MM, PG, BSW, BSP, BSB, BSF, BA, NPT, NPTF, UNC, UNF, UNEF etc Any Threads as per Customer's Design.

**Finishing / Plating :**Brass Natural, Electro Tinned, Nickel, Silver, Zinc, Nickle-Chrome or any Special Finish/Plating as per Customer's Specification.

## Products

### EYE BOLT

## Products

### Fasteners

We offer a range of cold headed and bar turned / machined / stamped fasteners and fixings as per DIN / ISO / BS / ASTM / JIS / GOST standard for various applications. All our fasteners conform to international specifications and have a very high thread quality. 'Go' and 'Not go' thread gauges are maintained throughout production and after plating.

We cater to various industries like heating, switches, application, furniture, automobile, transformers, pumps, motors, marine, telecommunication, petrochemicals, and control panels etc. We are a leading manufacturer of brass fasteners, automotive fasteners, industrial fasteners, copper fasteners, and MS fasteners etc.

**Products Range :** Bolts , Hex Bolts, Carriage Bolts, Lag Bolts, Flange Bolts, Eye Bolts, U-Bolts, J-Bolts, Shoulder Bolts, Elevator Bolts, Brass Revert, Brass Nipple, Brass Nozzles, Hanger Bolts, Hexagonal Bolt, Round Bolt Screws, Wood Screws, Machine Screws, Thread Cutting Machine Screws, Sheet Metal Screws, Self Drilling, Socket Screws, Slotted Screws, Thumb Screws, Philips Head Screws, Set Screws, Mating Screws, Self Tapping Screws, Special head screws, Nuts, Hex Nut, Round Nut, Hexagonal, Nylon Insert Lock, Jam, Nylon Insert Jam Lock, Wing, Cap, Acorn, Flange, Tee, Square, Prevailing torque lock, K-Lock or Kep, 2-Way Reversible Lock, Coupling, Slotted, Castle, Insert nut, Washers, Flat Washer, Spring Washer, Split Lock Washer, Square Washer, Round Washer, Internal Tooth Washer, External Tooth Washer, Overlap Washer Internal, Overlap Washer External, Two Tongue Washers, Taper Washer, Disc Spring Washer, Nord-Lock Washer, Cup Washer, Contact Washer, Wave Washer, Curved Washer

## Products

### Brass Components

Union Nuts

Nipple

Couplers Double Fittings

Double Nipple

We are a well known brass welding accessories manufacturer, provides accessories as per the client specifications includes brass welding hose fittings, brass welding screw machine parts, brass hex plug, brass pipes union and brass pipe hex bushing.

We can manufacture and export any type of Welding Accessories as per specifications (custom drawing and samples) for more information please Contact Us Now.

We provide a complete precision machining & engineering solution, from customer ideas, drawings, sample products, right through to the manufacture of quality precision components.

Our engineering services include:

CNC sliding head machining, CNC turning, CNC milling, Conventional turning, Conventional milling Precision Turned, Drilling, Fitting and assembly, We are a key supplier for several major companies in the Plumbing & Sanitary, Agricultural Engineering, Brewing Industry, Chemical, Civil Engineering, Electrical & Electronics, Food Industry, General Engineering, Hydraulic, Marine, Oil & Gas, Pharmaceutical, Power Generation, Pumps & Valves, Telecommunications industry sectors. We offer to finish as required, including Nickel plating, Chrome Plating & Tin Plating.

## Products

### Sheet Metal Parts

### FEATURES

MS MCB Switch Parts  
MCB Switch Parts  
MCB Switch Components  
MCB Electrical Components  
Brass Washers  
Brass Stamping Components  
Brass Square Flange  
Brass Sheet Punching Parts  
Plain washer to BS 4320: 1968 DIN 125, 433 and 9021.

Also available special pressed part pressings and deep drawn component, pressing and parts for Switchgear, Transformer, Elevator, Heater and other electromechanical application. Pressing up to 5mm thickness can be provided on 400 tone press.

## Products

### PNEUMATIC PARTS & FLARE FITTINGS

|                        |                             |
|------------------------|-----------------------------|
| Double End Flare Elbow | 1/4" to 3/4"                |
| Reducing Flare Elbow   | 1/4" - 5/16" to 5/8" - 3/4" |
| Half Flare Elbow       | 1/4" - 1/8" to 5/8" - 1/2"  |
| Triple end Flare Tee   | 1/4" to 3/4"                |
| Half Flare Tee         | 1/4" - 1/8" to 1/2" - 3/8"  |
| Flare Nut Short Neck   | 3/16" to 3/4"               |
| Flare Nut Long Neck    | 3/16" to 3/4"               |
| Flare Nut Dead (CAP)   | 1/4" to 3/4"                |
| Double End Flare Union | 3/16" to 3/4"               |
| Reducing Flare Union   | 3/16" - 1/4" to 5/8" - 3/4" |
| Half Flare Union       | 3/16" - 1/8" to 3/4" - 3/4" |
| Gauge Adaptor          | 1/4" - 1/8" to 5/8" - 1/2"  |
| Flare Adaptor          | 1/4" - 1/4" to 3/4" - 5/8"  |
| Condensor Union        | 1/4" to 5/8"                |
| Flare Seal Plug        | 1/4" to 3/4"                |
